Holding access but with no row on the August tab

These six are not billed for August, yet they still receive class material. Each one needs a decision.

Points worth acting on

- **Eight students are receiving every August recording without having paid**, and a ninth has paid under half. Together that is UGX 2,825,000, plus whatever Ivy Bochaberi's August rate turns out to be.
- **The sheet's own outstanding figure of UGX 200,000 understates this**. It only picks up Bwogi Allan, because the eight unpaid rows have an empty Balance cell rather than a calculated one. Filling those cells would make the tracker's total honest.
- **Ivy Bochaberi has no August rate set**. She was billed 700,000 in June and 350,000 in July, so the correct figure needs your decision before she can be chased.
- **Leah Nkamara, David Soro and Lynn Mugisha** hold full access but appear nowhere on the August tab. Either they should be billed or their access should lapse.
- **Abraham Matovu Ddungu** is correctly off both lists. His 500,000 bought June and July recordings only, and that access ended on 31 July.
